

Boss Metal Fabricators, Inc.

Here they are — the qualities you are searching for!

- ◆ **Large or small quantities:** from component parts to complete assemblies, from prototypes to production runs.
- ◆ **Your Industry:** Boss handles work from a variety of industries, including yours!
- ◆ **State of the art equipment:** in tune with industry advancements and technology, Boss uses the latest computer-integrated metalworking technologies, along with an array of CNC machines and state of the art equipment.
- ◆ **Many processes in-house means competitive pricing.** Your job will be done with quality, efficiency and good communication.
- ◆ **Materials:** Boss works with 95% metal products (steel and stainless steel primarily, but also aluminum), 5% plastic or wire fabrication. We can also incorporate glass or wood into your design.
- ◆ **Experience, longevity and respect in the industry:** Now in business 35 years, Boss Metal is made up of industry professionals. Their longevity reflects the way customers choose to come back again and again!

**NOW!
In Business
More Than
35 Years!**
